Projects Executed

Project 1: Library Card Catalog
Developed a .NET console application to easily track & retrieve books in a library. Used serialization to save data to the file system.

Project 2: Coding Temple Website
Website customization based on in-house requirements using HTML & CSS. Added new feature requests, fixed bugs and trouble shoot.

Project 3: Amazon Sign In Page Quiz
Rebuilt a quiz page using HTML and CSS based on a visual asset.

Project 4: Periodic Table
Used HTML and CSS to create a page with the periodic table.

Project 5: Weather Application
Developed a Single Page Web Application using JavaScript, HTML, CSS and JQuery. Retrieved weather information using the weather underground API. Employed a search functionality to display weather by city or zip code.

Project 6: About Me Page
Created a webpage page using HTML, CSS, JavaScript, Bootstrap, and JQuery

Project 7: Gem Store
Built a small e-Commerce application that allowed customers to review products. Extensively used HTML, CSS, Bootstrap, AngularJS, ASP.NET Web API and SQL Express

Education

Nanodegree, Android Development   **Udacity**
Bachelor of Arts, Psychology   **Eastern Illinois University, Charleston, IL**
Associates Degree, Liberal Arts   **Oakton Community College, Des Plaines, IL**
